

**American Angus Association
Foot Score Database
March 2017**

The following lists participating colleges and coaches taking an active role in the Association's efforts to collect foot scores for development of a future selection tool. If a breeder would like a college student to help collect foot scores on site, simply contact the coach in your area, and he/she will facilitate contact between the breeder and an available student for scoring. Producers are highly encouraged to compensate individual scorers for their time and/or travel. If you have additional questions, contact Kelli Retallick at 816.383.5190 or via email at kretallick@angus.org.

Angelo State University
